OUR SECTORS

We bring a people-first, thematic and buy-and-build approach to investing in growing and fragmented services sectors. We aim to invest \$50 million or more of equity in each business we support.

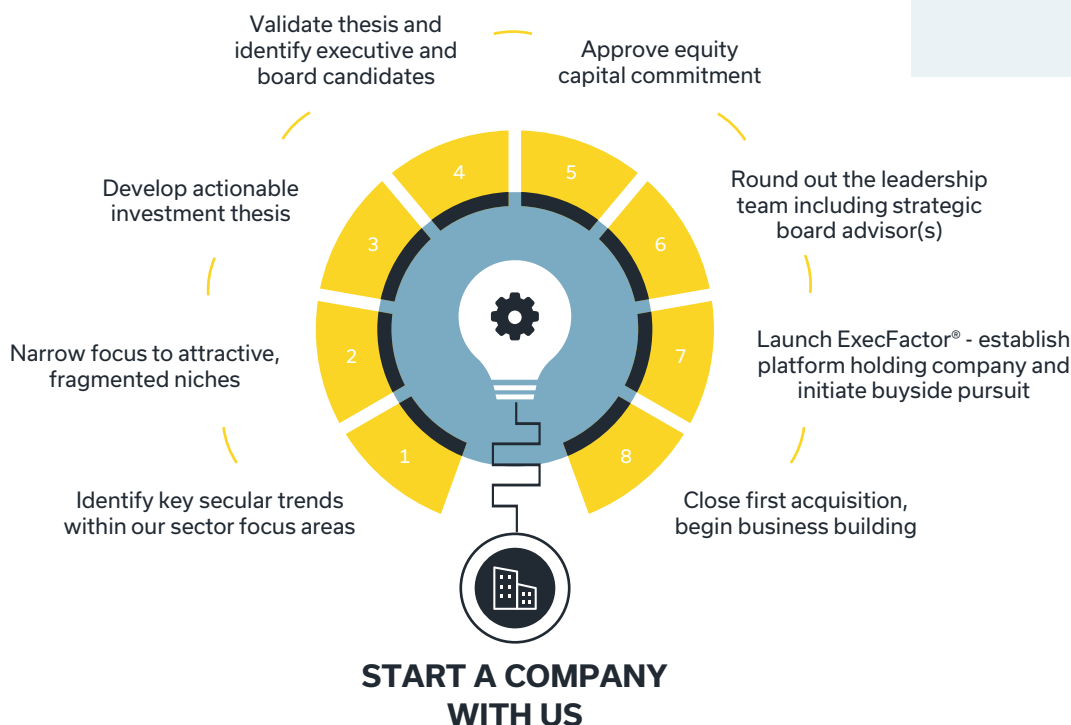

ExecFactor®

ExecFactor® is Huron's proprietary, thematic investment strategy where we underwrite an industry and partner with an executive to deploy our buy-and-build investment model. This strategy brings together our sector focus, deep industry relationships, committed capital, and repeatable buy-and-build approach to create a new platform investment.
